The Kirklees Healthy College Standard (KHCS) was produced after 2 years' work and consultation by a partnership from Huddersfield New College and the Kirklees Healthy Schools Team. It is on similar lines to the National Healthy Schools Standard but appropriate to the 16-19 age group and was initially available in October 2003.

A National Healthy College network (now well over 200 members strong) was also set up to pilot the standard and share good practice. This has attracted interest from both Health and Education. The KHCS has proved a hugely successful tool for colleges to audit their approach to health and to plan ways of improving provision for students and staff. Essential features include the setting up of a cross college task group supported by senior managers and involvement of students and staff in decision making on health related issues.

The standard not only enables colleges to address Every Child Matters outcomes but also includes other criteria such as Staff Wellbeing. The National CAMHS Support Service and LSN have kindly supplied funding which has enabled the KHCS to be available free to all colleges (Sixth Form and Further Education).

The new 2006 version features a revised Student Wellbeing criterion with a strong focus on Emotional Wellbeing and was written by network members.

The first national conference’s objectives are to:
• Give the background to healthy colleges work in England, understand the current situation and have an opportunity to discuss future developments
• Explore how the role of healthy colleges can be an effective vehicle for delivering national and local strategies, e.g. ‘Every Child Matters’ and ‘Choosing Health’
• Share and develop learning from colleges and partners to deliver a ‘Healthy Colleges’ approach
• Develop networking and partnerships across FE and its partners

Draft programme
9.00 am Arrival, tea/coffee
9.30 am Introduction
Rona Cruickshank
Public Health Directorate, Ashton, Leigh & Wigan Primary Care Trust

9.35 am Background to & overview of Healthy Colleges work
Kate Birch
